

Explore! to Magnify Family Voice

Explore! is a three-month hybrid learning experience designed to help families and schools strengthen family and civic engagement to improve outcomes for students and communities. Each month, participants will meet in-person for a three-hour session, followed by one hour per week of online learning for three weeks.

Participants will explore various opportunities to influence local decision makers in their communities. They'll also learn new concepts, apply them, reflect on their experiences, and share real-life examples of their progress.

Explore! Is Great For

- Parenting adults and caregivers serving in or wanting to step into leadership roles
- School-based staff strengthening family engagement practices
- Community members supporting policies to improve families' lives

What Makes Explore! Different?

Explore! focuses on moving from engagement to shared leadership, connecting family engagement efforts to meaningful student and family outcomes.

Participants will:

- Learn practical leadership strategies that they can apply in their school or community
- Explore how engagement connects to decision-making and outcomes
- Strengthen confidence in shared leadership
- Complete a mini project that addresses a real-world application.
